EVALUATION OF TRANSPORTATION ROUTE - INFORMATION FOR APPLICANT

National Motorway Company evaluates routes and defines conditions for heavy and abnormal transport using motorways and roads under its administration.

Authorization procedure for the special use of roads for heavy and abnormal transport as well as process of administrators and determination of conditions (other than regulations) governed by the Act. No. 135/1961 Coll. on road network (road act) as amended. There are some clauses relevant for realization of transport itself.

Important information
Based on the statement of the Ministry of Transport, Construction and Regional Development applications from 1.1.2016 must not include the Agreement of the special use of motorways in Slovakia.
Application not filled as required will not be registered. Time interface 30 days is only temporary. In the future, interface will be reduced.

National Motorway Company is not responsible for any differences between the data contained in the application and the real parameters of vehicle combination, which could be found during the official acts (weighing, measuring) by control authorities. Therefore, we emphasise the need of filling the correct data.

Applications sent by post will not be accepted.

Supported internet browser
For trouble-free submission of applications, we recommend you to use following internet browsers:
Internet Explorer ver. 10 and above, Mozilla Firefox ver. 10 and above, Google Chrome ver. 12 and above or Safari.

Explorer	Firefox	Chrome	Safari

Sum weight control of load and vehicles

The page features a built-in weight control algorithm. Submit an application without equal value in the fields <u>Total weight</u> is not possible. The following rule applies here:

Weight of the load + weight of vehicle/vehicles = <u>Total weight</u>. In case your entered values are not matching in result mathematically, we recommend you to add a kilogram to your load, so your application can be submitted. **<u>Definitely we do not recommend detracting from weight</u>**. In case load is the vehicle itself, please enter zero into field Weight of the load, than enter weight of the vehicle into field Weight of vehicle.

How to select a transportation route via spreadsheet

Indicate enter and exit to/from motorway in the order how you are going to use it for heavy (abnormal) transport. Applications can be submitted for one way only. In case of an assessment of application for both directions/selecting checkbox/:

☑ AND BACK (USING THE SAME ROUTE)

Transport set must return along the same route with the same weight parameters.

Route

CHOOSE FROM LIST   CHOOSE FROM MAP

STEP 1

Select the appropriate route and you can choose from various sections for each direction.
Select the first junction.
Left click on the text / name of the junction.

Route

| D1 | D1 - PD5 | D2 | D3 | D4 | I/11 I/11A | I/17 | I/18 | I/9 | PR3 | R1 | R1A | R2 I/9 | R3 | R4 | R6 I/49 |
